

## Senior Research Engineer (IR1) Genomics & Bioinformatics

Pascal MARTIN, Agr. Eng., PhD

Born in 1977

+33 769-250-268

@ pascal.martin@inrae.fr

<http://perso.pgpmartin.fr>

### Research interests

- Regulation of gene expression
- Transcription & chromatin organization
- NGS-based approaches & long reads
- Bioinformatics & biostatistics
- R and Bioconductor

### Career summary

**Since 2021-** Senior Research Engineer (IR1), INRAE [BFP](#), Bordeaux, France  
**2019-20.....** Research Specialist I, HHMI / Indiana University, USA, [Pikaard lab](#)  
**2017-19.....** Senior Research Engineer (IR1) INRA [ToxAlim](#) Toulouse  
**2015-17.....** [Agreenskills+](#) fellow, Indiana University, USA [Scott Michaels'](#) lab  
**2013-15.....** Visiting Scientist, [LBME](#), CNRS-Univ. Toulouse, O. [Cuvier](#)  
**2011-15.....** Founder and Head of transcriptomic facility [GeT-TRiX](#)  
**2007-11.....** Co-head of Integrative Toxicology & Metabolism [group](#)  
**2004-07.....** Junior Research Engineer (IR2) INRA ToxAlim Toulouse

### Academic training

**2007.....** PhD in Pharmacology, [Univ. Toulouse](#)  
**2000.....** MSc in Animal biology & production, [Univ. Rennes I](#)  
**2000.....** MSc in Agricultural Engineering, [Agrocampus Ovest](#)  
**1999.....** BSc in Agricultural Engineering, [Agrocampus Ovest](#)

### Summary of scientific production [2000-2021]

- ➔ **60** peer-reviewed international publications in the field of biology (transcriptomics, functional genomics, nuclear receptors, toxicology, nutrition, metabolism), biostatistics and bioinformatics (h-index: 33 / i10-index: 52)
- ➔ Author and co-author of several lectures, communications and posters
- ➔ Leader and contributor for several competitive research grants (EU, [ANR](#), Ministry, etc.)

### Other professional activities – Awards & honors

- Agreenskills+ fellowship recipient (EU, Marie Curie, 2015-17)
- Supervision of 3 PhD students
- Teaching in genomics, bioinformatics & biostatistics (professional, PhD and MSc levels)
- Scientific boards (INRA [Animal Health](#) Dep., [@BRIDGe](#) and [GenoToul](#) core facilities)
- Scientific evaluation committees (ANR, INRA recruitment & promotions)
- Grant evaluations and article reviews for international journals
- PhD scholarships (2000-2003: [Ministère](#), 2004: [Ligue contre le cancer](#)).

# Research activities and productions

## Publications (2000-2022)

Original articles, reviews, book chapters

Corresponding author underlined. [5 year-impact factor, journal category and ranking, quartile]

-  Major contribution. Major involvement in research funding, study design, management and supervision, data acquisition, data analysis and major contribution to article writing.
-  Decisive contribution. Important involvement in study design, PhD supervision, data acquisition, data analysis and article writing.
-  Focused contribution. Most often a strong involvement in genomic/transcriptomic data acquisition, analysis and interpretation. Contribution to article writing
-  Minor contribution to the article. Most often a technical contribution (animal study, expertise in qPCR, etc.) or reagents/models (plasmid, primers, knockout mice, etc.).

These categories represent a self-assessment of my role in these publications and the associated research. They are only provided as a guide to facilitate the evaluation of my work and do not represent my opinion on the quality of these publications.

### Book chapter:

1. H. Guillou, **P.G.P. Martin** and T. Pineau (2009). Transcriptional regulation of hepatic fatty acid metabolism. *Subcellular Biochemistry: Lipids in Health and Disease*. P. J. Quinn and X. Wang, Eds. Springer. Vol 49: 3-47.

## Software development

1. **P.G.P. Martin**. NanoBAC R package for the assembly of BAC sequences obtained with Oxford Nanopore long read sequencing technology. <https://github.com/pgpmartin/NanoBAC> . I also developed a Snakemake pipeline for this task, based on the NanoBAC R package: [https://github.com/pgpmartin/NanoBAC\\_pipeline](https://github.com/pgpmartin/NanoBAC_pipeline)

2. **P.G.P. Martin**. GeneNeighborhood R package. <https://github.com/pgpmartin/GeneNeighborhood>

NOTE : I also developed the core scripts that are still used by the Get-TRiX transcriptomic facility to generate analysis reports from transcriptomic studies.

## Invited lectures & seminars

1. **P.G.P. Martin** (2022) GeneNeighborhood: an R package to explore the direct neighbors of your favorite gene set. *Scientific seminars of LaBRI (Laboratoire Bordelais de Recherche en Informatique)*. (Invitation R Uricaru). Bordeaux. France. Dec 15.
2. **P.G.P. Martin** (2022) Genome-wide impacts of controlling RNA polymerase II elongation via the BORDER proteins in Arabidopsis thaliana. *Scientific seminars of UMR1332 BFP*. (Invitation by scientific organizing committee). Bordeaux. France. Jan 17.
3. **P.G.P. Martin** (2021) Diversité et complémentarité des approches de bioinformatique en génomique illustrées par un exemple. *Bioinfo after Master (BAM) 3eme edition*. (Invitation by bioinfo master students). Bordeaux. France. Dec 10.
4. **P.G.P. Martin** (2021) Arabidopsis BORDER proteins put the breaks on RNA polymerase II elongation. *Institut de Recherche en Horticulture et Semences (IRHS)*. (Invitation S Balzergue). Angers. France. Oct 15.
5. **P.G.P. Martin**, X Yu, SD Michaels (2018) A family of negative transcription elongation factors regulates defense response genes and protects the genome of A. thaliana from transcriptional interferences. *Center for Integrative Biology – Seminar series of the Genome Dynamics axis* (invitation A Henras). Toulouse. France. Jan 22.
6. **P.G.P. Martin**, X Yu, SD Michaels (2018) A family of negative transcription elongation factors regulates defense response genes and protects the genome of A. thaliana from transcriptional interferences. *Séminaires du laboratoire GenePhySE INRA* (invitation G Tosser-Klopp). Toulouse. France. Jan 15.
7. **P.G.P. Martin**, X Yu, SD Michaels (2017) A family of negative transcription elongation factors regulates defense response genes and protects the genome of A. thaliana from transcriptional interferences. *Séminaires de la Fédération de Recherche Agrobiosciences, Interactions & Biodiversité* (invitation C Bruand). Toulouse. France. Nov 16.
8. **P.G.P. Martin** (2016) Core Bioconductor packages for NGS data analysis. *5èmes Rencontres R* (invitation N Villa-Vialaneix). Toulouse. France. Jun 22-24.
9. **P.G.P. Martin**, **Y. Lippi** (2014). The GeT-TRiX facility : automated processing of expression microarrays - from samples to data analysis reports. *First Agilent AgroBio symposium* (invitation: F. Brun). Amsterdam. Netherlands. Feb 25-26.
10. **P.G.P. Martin** (2012). RNA-seq analysis of sex-dependent gene expression in the liver and white adipose tissue of 3 species: pig, chicken and mouse. *Workshop on new technologies for the study of gene expression* (invitation: Genome & Transcriptome platform GenoToul). Toulouse, France. July 2nd.
11. **P.G.P. Martin** (2012). Toxicogenomics: definitions, tools and application to the study of bisphenol A. *Workshop on Endocrine and metabolic disruptors* (invitation: JP Cravedi, leader of CT4 scientific axis for the Nutrition, Chemical Food Safety and Consumer Behaviour department at INRA). Dijon, France. March 29-30
12. **P.G.P. Martin** (2011). Sex-dependent gene expression in metabolic tissues from 3 species: pig, chicken and mouse. *Workshop on pilot projects using the HiSeq2000* (invitation: Genome & Transcriptome platform GenoToul). Toulouse, France. Oct 7

13. **P.G.P. Martin** (2010). keynote lecture and chairman of the scientific session on "Endocrine disruptors and chronic metabolic diseases". *Workshop on Food Toxicology in ToxAlim*. Toulouse, France. Dec 2-3.
14. **P.G.P. Martin, H. Guillou** (2011). Regulation of hepatic lipid metabolism: effect of dietary fatty acids and effect of bisphenol A. *Seminar at the Centre Intégratif de Génomique, Université de Lausanne* (invitation: Pr Walter Wahli). Lausanne, Suisse. March 1st
15. **P.G.P. Martin** (2010). Added value of the collaborations between biologists and statisticians in integrative toxicology and omics data analysis. *Workshop on Biostatistics and Medical statistics in honor of Alain Baccini and Gérard Tap* (invitation : Pr A Baccini). Toulouse, France. Sep. 28.
16. **P.G.P. Martin** (2009). Endocrine and metabolic disruptors from plastic products: impact assessment. *4<sup>th</sup> congress of the French Society of Nutrition* (invitation: Pr Jean Dallongeville). Montpellier, France. Dec. 10-12.
17. **P.G.P. Martin** (2009). Integration of omics data to decipher the effects of nutrients and food contaminants. *Workshop MIBS Mathematics, Informatics, Physics and Integrative Biology: a step towards systems biology* (invitation : Pr P Besse). Univ. Toulouse, France. June 18.
18. **P.G.P. Martin** (2008). Integration of omics data to decipher the effects of nutrients and food contaminants . *GenoToul 2008, 5<sup>th</sup> edition : Où va la génomique?* (invitation: Dr C Chevalet) Toulouse, France. Dec. 11.
19. **P.G.P. Martin**. (2008) Nutrigenomics: definition, challenges, tools and research subjects Workshop on gene-nutrients interactions organized by INRA Nutrition, Chemical Food Safety and Consumer Behaviour Department (invitation: Nutrition, Chemical Food Safety and Consumer Behaviour Dep. INRA). Paris, France. May 23.

### Oral communications with proceedings

1. N. Moussaoui, A. Ait-Belgnaoui, V. Braniste, E. Gaultier, S. Ménard, M. Olier, V. Théodorou, **P.G. Martin**, and **E. Houdeau**. (2014) Premature gut and neonatal stress: high intestinal glucocorticoid responsiveness in early life shapes the risk of epithelial barrier defect in response to maternal separation. ### Supervision of PhD students

1. **Nabila Moussaoui** (2010-2014, co-advisor with Eric Houdeau). « Effect of maternal separation on the development and maturation of the gut-liver axis ». Funding: INRA Animal Health Department / Région Midi-Pyrénées.
2. **Béatrice Roques** (2009-2012, co-advisor with Catherine Viguié). « Impact of fipronil on thyroid function ». Funding: Ministère de l'éducation nationale, de l'enseignement supérieur et de la recherche.
3. **Alexandre Eveillard** (2006-2009, co-advisor with Thierry Pineau). « Identification of biological networks targeted by *di(2-ethylhexyl)phthalate (DEHP)*, a plasticizer acting as endocrine and metabolic disruptor: combined transcriptomic and metabolomic investigations. ». Funding: Ministère de l'éducation nationale, de l'enseignement supérieur et de la recherche.

### Supervision of Master students

**Master diploma (MSc or equivalent)** (2<sup>nd</sup> year, M2): Simon Miraglia (2021, Univ. Bordeaux, co-supervisor with N. Frangne), Nabila Moussaoui (2010, Univ. Toulouse III, supervisor), Frédéric Lasserre

(2008, EPHE, co-supervisor with T. Pineau), Alexandre Eveillard (2005, Univ. Toulouse III, co-supervisor with T. Pineau), Marie De Tayrac (2005, Agrocampus Ouest, co-supervisor with T. Pineau)

**MSc 1<sup>st</sup> year** (M1): Clément Sauvestre (2021, Univ; Bordeaux, co-supervision with Raluca Uricaru) ; Mathilde Gorieu (Agrocampus Ouest, 2016-17) ; Alice Vigneron (2006, Univ. Toulouse) ; Morgan Gueritault & Emilie Belkaï (2005, Univ. Toulouse, co-supervision with T. Pineau).

## Research funding

*Amounts indicated are those dedicated to me or my research group only.*

1. ANR CES20. TomEndCode 2023-2026. Deciphering the regulatory CODE of gene expression during ENDoreduplication in TOMato. Major contributor. 330 K€. 2 academic partners. Leader N. Gonzalez.
2. Univ. Bordeaux. Department of Environmental Sciences. 2021 call for proposals. EpigenoFruit project. 2021-2022. Epigenomic profiling during early fruit growth. Project leader 30K€.
3. INRAE Department BAP - 2021 open call for proposals. ChromEndo project. 2021-2022. Understanding chromatin states and transcriptional mechanisms underlying the regulation of gene expression in endoreduplicated cells. Project leader. 30K€
4. Agreenskills+ Fellowship. June 2015-June 2017. Indiana University. Laboratory of Pr Scott D Michaels. 72K€.
5. Ministère de l'écologie, du développement durable et de l'énergie. GMO90+ Project (2014-2016): Improved predictability of sub-chronic GMO toxicity by identification of early biomarkers of toxicity. Contributor in charge of all transcriptomic analyses (gene expression and miRNA). 450K€. 5 academic and 4 private partners. Leader: B. Salles.
6. Institut Carnot en Santé Animale (ICSA). Research collaboration with 1 private partner (2013-2014). Multi-tissue transcriptomic analysis of the response variability to a high-fat diet. Leader. 240K€.
7. Institut Carnot en Santé Animale (ICSA). Research collaboration with 1 private partner (2012). Multi-tissue analysis of the transcriptomic effects of a diet inducing metabolic disruptions. Leader. 42K€
8. INRA Bioresource (2011). SOS-RNAseq: sex- organ- and species-specific transcriptomes by RNA-seq. Leader. 29K€. 4 academic partners.
9. ANR CES (Contaminants, Ecosystèmes, Santé) Program (2011-2014) . Perinatox: early life effects of bisphenol A (BPA) on the maturing gut barrier and metabolic programming in the liver and adipose tissue: long term consequences in adulthood. Contributor. 114K€. 7 academic partners. Leader E. Houdeau.
10. INRA-FORMAS (France-Sweden Cooperation) Open call (2009-2010). Regulation and significance of very long chain polyunsaturated fatty acids synthesis. Contributor. 120K€. 2 academic partners. Leader: T. Pineau.
11. INRA Nutrition, Chemical Food Safety and Consumer Behaviour Department Priority Action (2008-2010). Effects of chronic exposure to low BPA doses in the gestating and lactating female rat on the integrity of the gut epithelial barrier: consequences for the immune functions of the adult offspring. Contributor. 30 K€. 4 academic partners. Leader: E. Houdeau.
12. Région Midi-Pyrénées – Recherche en Transfert Clinique et Normalisation (2008-2009). Contribution to the assessment of the risk to human health of an agro-veterinary insecticide acting as a potential thyroid disruptor. Contributor. 25K€. 3 academic partners. Leader: C. Viguié.
13. ANR PNRA (Programme National de Recherche en Alimentation) (2007-2009). PlastImpact: Metabolic and endocrine impacts of two plastic industry-related contaminants of the food chain: BPA and DEHP. Contributor. 130K€. 7 academic partners. Leader: T. Pineau.
14. PNRPE (Programme Nationale de Recherche sur les Perturbateurs Endocriniens). Fipronil and brominated flame retardants: exposure and disruption of thyroid and corticosteroid functions. Contributor. 30K€. 6 academic partners. Leader: C Viguié.
15. PhD fellowship (2000-2003: [Ministère](#), 2004: [Ligue contre le cancer](#)).

## Teaching activities

### Academic Training:

- Master Biology AgroSciences Bordeaux (B2AS), Univ. Bordeaux. Analysis of RNA-seq data on the IFB cluster (TD 8h and student projects in 2022). Courses available on [Github](#).

- Master of Bioinformatics, Univ. Toulouse III. R and Bioconductor for NGS data analysis (8h in 2018). RNA-seq and ChIP-seq data analysis (8h in 2018). Courses available on [Github](#).
- Summer School EU ITN ProTectED. Introduction to Functional Genomics ([slides](#))
- Master of Bioinformatics, Univ. Toulouse III. Workshop on "ChIP-seq data analysis" (8h in 2015)
- Master (MSc) "Genes, cells and development", Univ. Toulouse III. Workshop on "Bioinformatics for NGS data analysis" (2 x 4h with S. Déjean in 2014)
- DU (University Diploma) of Medical Toxicology, Univ Toulouse III "Models in toxicology" and "Omic approaches in toxicology" (2 x 3h in 2012)
- Licence (BSc) "Statistics and informatics for decision-making", Univ. Perpignan. "High throughput analysis of gene expression"(4h in 2008)
- Master (MSc) "Animal Biology and Production", Agrocampus Ouest, Rennes. "Gene expression analysis: from bench to data analysis in R/Bioconductor" (20h in 2006).
- Master (MSc) "Bioengineering", Univ. Toulouse III. "Analysis of gene expression", (4h/year, 2005-2012).
- Master (MSc) "Pharmacological innovations", Univ. Toulouse III. Workshop on "Biostatistics for the analysis of omics data", (5h/year with S. Déjean, 2005-2012).
- Master (MSc) "Food products quality and food safety", Univ. Toulouse III. "Technologies for the analysis of gene expression", "Nuclear receptors in nutrition, pharmacology and toxicology" and "Biostatistics for the analysis of omics data" (12h/year, 2008-2011).

### Professional education:

(For researchers, post-docs and PhD students, both lectures and hands-on computer sessions)

- Training session at Agrocampus Ouest, Rennes, France. "Biostatistics for the analysis of omics data with R/Bioconductor" (organized by S. Lagarrigue, ~20h/year from 2007 to 2015)
- Training session of the biostatistics facility of GenoToul, Toulouse, France. "Biostatistics for the analysis of omics data with R/Bioconductor" (~10h/year from 2007 to 2015).
- Training session of INSERM, Toulouse, France. "Applied statistics" and "Initiation to R" (~16h/year with S. Déjean, 2009-2013)
- European course "Genomics on obesity", Hepadip & DioGenes EU FP6 projects, "Statistics and bioinformatics applied to omics data", Toulouse (4h in 2007)
- Training session CNRS, Toulouse, France. "Analysis of omics data" (32h with S. Déjean in 2011)

### Science outreach

1. Interview for the exposition "Les métiers de la science" ("Jobs in the science field") and contribution to the production of a leaflet presenting my function as a research engineer.
2. Press conference at INRA Paris followed by several interviews concerning our investigations on the effects of bisphenol A on liver lipid storage (Marmugi *et al.*, Hepatology, 2012)
3. Paris A, Domange C, Eveillard A, Canlet C, Martin P, Pineau T, Priymenko N. "Metabolomics and the concerns about food security and consumer's health protection" **OCL** (Oléagineux Corps gras Lipides). 15(5), 300-304.
4. Invited conference on "Food contaminants: which impacts on health ?" within the framework of the conference series "Quand les sciences s'en mêlent" (Médiahèque Toulouse, 04 nov. 2010).
5. Interview by Evelyn Gogien published in "Le Généraliste" (22/01/2010) entitled "Haro sur les phtalates et le bisphénol A" (Evelyn Gogien).
6. Contribution with H. Guillou to the writing of an insert entitled "Endocrine disruptors as environmental obesogens" in the framework of a report from the office parlementaire d'évaluation des choix scientifiques et technologiques (OPECST) written by Mrs Brigitte Bout (Senator)

### Education and employment

**2021-present:** Senior Research Engineer (IR1) at BFP INRAE, Villenave d'Ornon, France. Fruit Development, Flowering and Environment (FDPE group, *head N. Gonzalez*). *Chromatin and transcription during endoreduplication in tomato fruit.*

- 2019-2020:** Research Specialist I, HHMI / Indiana University, IN, USA. Lab of [Pr Craig Pikaard](#). *Long read sequencing for the assembly of ribosomal DNA in Arabidopsis thaliana. Development of new assays and bioinformatic pipelines.*
- 2017-2019:** Senior Research Engineer at [ToxAlim](#) INRA/INPT (head: V. Theodorou). Team E5 BioToMyc: Biosynthesis & Toxicity of Mycotoxins. *Role of transcription elongation factors in the regulation of gene clusters responsible for the production of mycotoxins.*
- 2015-2017:** Agreenskills+ fellow. [Scott Michaels](#) lab at [Indiana University](#). IN, USA. *Genome-wide functions of a new family of negative transcription elongation factors in Arabidopsis thaliana.*
- 2013-2015:** Visiting scientist. "Cell cycle chromatin genomics" group (O. Cuvier) at [LBME CNRS](#)-Univ. Toulouse (head: P.-E. Gleizes). *Links between chromatin organization by insulators and RNA polymerase II transcription in Drosophila cells. NGS approaches. Bioinformatics training.*
- 2004-15:** Research Engineer at [ToxAlim](#) INRA/INPT (head: B. Salles)
- **2011-15:** Founder and head of the "Transcriptomic Impact of Xenobiotics" facility (3 permanents, see [TRiX](#) and [GeT](#) websites)
  - **2014:** Research Engineer INRA – internal promotion (IR1)
  - **2007-11:** Joint-head of the "[Integrative Toxicology & Metabolism](#)" group with T. Pineau and then H. Guillou (8-9 permanents). *Regulation of hepatic gene expression related to metabolic pathways by nuclear receptors.*
  - **2007:** PhD in Biology, Health & Biotechnologies (option: Pharmacology), [Univ. Toulouse](#)
  - **2004-07:** Research Engineer (IR2) in the Molecular Pharmacology group (T. Pineau)
- 2000-2004:** PhD student ("*PPAR $\alpha$ -mediated transcriptional regulations*", supervisor: T.Pineau). Laboratory of Pharmacology & Toxicology (UR66, INRA)
- 1998-2000:** Student at [Agrocampus Ouest](#) (French "Grande Ecole" or Elite Institution) and [Univ. Rennes](#)
- **2000:** MSc (DEA) in Animal Biology and Production (option: Biochemistry and Genetics applied to Animal Sciences)
  - **2000:** MSc in Agricultural Engineering / Diplôme d'ingénieur agronome & diplôme d'agronomie approfondie (major: Science and engineering in animal production)
  - **1999:** Voluntary 4 months internship at the National Heart, Lung and Blood Institute, NIH, Bethesda, USA (supervisor: G. Lambert, Lab: H.B. Brewer)
  - **1999:** BSc in Agricultural Engineering / Diplôme d'Agronomie Générale

### Skills and qualifications

1. Molecular biology and biochemistry.
2. Genomics and transcriptomics (qPCR, microarrays, NGS). Chromatin biology.
3. Animal studies including supervision (Level 1 in 2005, rodent surgery diploma in 2013)
4. Cell culture and biology.
5. Basics in plant science and physiology.
6. Microbiology (bacteria and molds).
7. Biostatistics and Bioinformatics:
  - Advanced level in [R/Bioconductor](#) programming, including data wrangling, data analysis and data integration, tidyverse, ggplot2 graphics, NGS / sequence data analysis
  - Rmarkdown
  - R package development. Continuous integration. Code coverage.
  - Unix environment. Unix/Ubuntu OS user since 2013.
  - Parallel computing. Computer cluster use: SGE / PBS-Torque / SLURM
  - Versioning with git and Github

- Workflow development: Snakemake
  - Conda package management and Singularity/Docker containers
8. Management (project, group) and supervision
  9. Teaching (lectures and hands-on)
  10. Scientific communication: writing, conferences, teaching and training, websites.
  11. Languages : French (native) ; English and Italian (fluent) ; German and Spanish (basics).

### **Scientific boards and committees / reviewing activities**

1. Evaluation committee for INRAE promotions as Study Engineer ([CIPP](#) 2018, 2022)
2. Recruitment jury for research technicians positions at INRA (2015)
3. Scientific board of the [Animal Health Department](#) of INRA (elected member, 2011-2015)
4. Scientific advisory board of the [CRB GADIE](#) / [@BRIDGE](#) facility (2009-2015)
5. Coordinator of the GenoToul [biostatistics](#) platform with Dr S. Déjean (2008-2012)
6. Membre of INRA Bioinformatics advisory board (2008-2011)
7. Advisory board of [GenoToul](#) core facilities (biochips 2006-2015, functional exploration 2007-2015, bioinformatics 2012-2019)
8. Scientific committee of the [ANR](#) CESA Program (2012). Review of 29 pre-proposals in 2013.
9. Evaluation of scientific projects for funding bodies (ANR, DFG, Region, Univ., INRA)
10. Article reviews for international journals
